Ms. Susan Pentico  
Plateau Resources  
NBU 11  
Ticaboo, Utah 84734

Dear Ms. Pentico:

Re: 1986 Annual Reports, Tony M/Lucky Strike Mine - ACT/017/001,  
Frank M. Mine -ACT/017/017; Retirement of Shootering Mill File,  
ACT/017/016, Garfield County, Utah

Enclosed are annual report forms for the Tony M/Lucky Strike Mine and Frank M. Mine that must be completed and returned to the Division by April 30, 1987. These reports should provide details of the Mining and reclamation activities conducted during 1986. An updated map of each operation should also be included if there has been any significant changes on-site since last year.

It is the Division's understanding that the Plateau Resources Shootering Canyon Mill is permitted and bonded for reclamation through the NRC. We see no point in keeping our permit files on the mill active at this time since this would constitute double regulation. If Plateau Resources concurs, we will retire our files on the mill.

Should you have any questions or need additional information. Please contact me or Frank Filas of my staff.

Sincerely,

L. P. Braxton  
Administrator  
Mineral Resource Development  
and Reclamation Program
